203-909-5497

New York, NY

Education

Pratt Institute

Brooklyn, NY | (2015-2020)

Major: Bachelor of Architecture

Concentration: Morphology

Minor: Construction Management

Accolades: Merit Scholarship • Student Worker of the Year Award • Dean's and President's List

DesignLab

November 2020 - May 2021

UXAcademy Bootcamp

Harvard University Extension School

January 2022 - May 2022 (*In Progress*)

Introduction to Computer Science

FreeCodeCamp

Responsive Web Design (*In Progress*)

Tools

Graphic: Figma • Sketch • Adobe XD • Illustrator

• InDesign • Photoshop • Invision • Miro • Whimsical

3D: Rhino 3D • Revit • AutoCAD • Grasshopper • VRay

Development & Documentation: Rhinocommon • C#

• HTML/CSS • Bluebeam Revu • Monday • Google Suite

• Microsoft Office

Skills

Design: Concept Sketches & Storyboarding • Market &

User Research • Responsive Wireframes & Mockups

• Branding Illustrations & UI Graphics • User

Interviews & Usability Tests • Drafting & 3D Modeling

Production: Rapid Prototyping • Production

Redlines • Rendering • Presentation & Storytelling

Collaboration: Self Starter • Detail Oriented • Agile •

Communicative • Teamwork • Design Critique

• Public Speaking • Project Management

Leadership

Research Assistant at Center for Experimental Structures (CES)

Mentor at Pratt Precollege Program

Secretary of South Asian Student Association (SASA) at Pratt Institute

Experiences

Virtual Construction Lab of Schuco | Product Designer

(January 2021 - Present) | Manhattan, NY

- Lead of designing new company website and newsletter.
- Conducting interviews with stakeholders and researching for product improvement.
- Iterating, revising, testing, and debugging product designs.
- Programming automation of drawing set using C# language.
- Developing and managing templates for software product.
- Supporting product launch with project sprints.
- Analyzing and conveying system solutions to visual artists, software developers, and mechanical engineers.

Indigo Olive Software | UX/UI Design Consultant

(September 2020 - Present) | Remote

- Creating logos and icons for Indigo Olive's SaaS application.
- Collaborating with frontend developer to create user friendly interface.
- Debugging and redlining UX solutions for developers.
- Storyboarding and producing training videos for the users.

M+S Architecture | Contract Designer

(October 2020 - December 2020) | Remote

- Ideated multiple design options and iterated them based on client feedback.
- Designed print and digital marketing pamphlets for the firm.
- Delivered the design and detailed instruction drawings for an outdoor sitting shed for a New York City Restaurant within three days time constraint.

Lalvani Studio | Research Assistant/Intern

(Summer 2020) | Remote

- Studied forms and geometries discovered by Dr. Hareh Lalvani.
- Created 3D models of his concepts and ideas
- Analyzed the 3D models to further develop an understanding of the relationship between form, geometries, and architecture.
- Researched construction and pre-fabrication possibilities of these morphological forms.
- Produced a 100+ page print book to compile the research, experiments, and their final resolutions with illustrations.

Gensler | Architectural Intern

(June 2019 - August 2019) | Morristown, NJ

- Generated design options and iterated them based on team and client feedback.
- Prepared detailed construction drawings and schedules.
- Influenced the final design direction for the intern project by providing insight of the urban scale to envision "The Future of Cities."

Pratt Academic Computing Labs | Digital Technician & Trainer

(January 2017 - May 2020) | Brooklyn, NY

- Trained new student workers.
- Solved computers, printers, and projectors technical issues.
- Navigated students through software and technical difficulties.
- Managed and worked with *Lulzbot*, *Objet* and *Solidscape* 3D printers, *Artec* 3D scanners, and an *Universal Laser Systems* laser cutter.
- Assisted faculty and students with choosing correct printing materials from: PLA, Wax, Resin or Ninjabflex.
